PROFILE

I am an informatics engineering student with a strong interest in data analysis and software development. I am passionate about using technology to solve real-world problems and I am always looking for new ways to learn and grow my skills. I am a quick learner and I am eager to take on new challenges. I enjoy working with others to achieve common goals.

EDUCATION

Informatics Engineering **2021 - PRESENT**
School of Science | Wardiere University
GPA: 3.78 / 4.0

PROJECTS

NYC Property Sales Website **FEB 2024 - JUNE 2024**

In this project, my team and I analyzed and managed the dataset and then included it into Looker Studio. After that, we created a website in which there is the dataset.

Mataram City website **FEB 2024**

I worked on this project during my college break, with the aim of filling my free time with something useful. The creation of this project was facilitated by Dicoding Indonesia.

Medicare (Web Biomedical Systems) **DEC 2023**

Top Film Indonesia Application **SEP 2023 - NOV 2023**

Together with a partner named Dicoding, I learned to make a studio application with the theme "10 Top Cinema Films in Indonesia".

Shoecase website **NOV 2022 - DEC 2022**

This project was created by me and my team members to fulfill assignments in lectures.
